## What is this product?

### Type

UCITS investment fund in the form of an authorised unit trust.

### Term

The Sub-Fund has no maturity date, however the Manager is entitled to terminate the Sub-Fund at any time.

### Objectives

**Investment objective** The Sub-Fund seeks long term capital appreciation (i.e. to grow the value of your investment over the long term) by investing in smaller to medium-sized companies in the "Asian Region", which includes Bangladesh, Hong Kong, India, Indonesia, South Korea, Malaysia, Pakistan, The People's Republic of China, The Philippines, Singapore, Sri Lanka, Taiwan, Thailand and Laos, i.e. companies whose assets, products or operations are in the Asian Region. In practice, at least 50% of the Sub-Fund's investment will be in companies whose free float adjusted market capitalisation (i.e. market value) at the time of purchase is less than USD 1.5 billion.

The Sub-Fund will, under normal market conditions, invest the majority of its total assets in equity (i.e. shares) and equity related securities of companies whose assets, products or operations are in the Asian Region. The Sub-Fund may also invest in Australia and New Zealand. The Investment Manager constructs the portfolio based on a combination of bottom-up high conviction lists, a top-down country allocation framework, and a top-down industry allocation framework.

The Sub-Fund may use financial derivative instruments ("FDI") for efficient portfolio management (including hedging) purposes only. The Sub-Fund will not use FDI extensively for any purpose.

The Sub-Fund seeks to promote environmental and social characteristics in line with Article 8 of the Sustainable Finance Disclosures Regulation (SFDR) by virtue of the incorporation of environmental, social and governance ("ESG")- and sustainability risk-related factors into the Sub-Fund's investment process and the overall assessment of a company. This includes examining issues related to governance such as business ethics, board independence and diversity in both management and board-level positions and environmental impact and social factors including energy management, waste and waste water impact, air quality impact employee health and safety, community engagement and supply chain management.

**Share Class Benchmark** The benchmark is MSCI All Country Asia Pacific ex Japan Small Cap Daily Total Return Net Index.

**Benchmark** The Sub-Fund is actively managed, in reference to a benchmark. The Sub-Fund is seeking to deliver excess returns over the Sub-Fund's benchmark. The holdings may or may not be components of the benchmark and the Investment Manager has discretion to deviate entirely from the benchmark securities, weightings and risk characteristics. The degree to which the Sub-Fund resembles the composition and risk characteristics of the benchmark is not a specifically targeted outcome and could vary over time, and the Sub-Fund's performance may be meaningfully different from that of the Sub-Fund's benchmark.

**Redemption and Dealing** This Unit Class of the Sub-Fund may be redeemed on demand on any dealing day as detailed in the supplement. The price you pay or receive depends on the net asset value per unit on the dealing day when the unit is bought or sold.

**Distribution Policy** This Unit Class does not distribute dividends and any income and gains will be reinvested in the Unit's net asset value.

### Intended retail investor

The Sub-Fund is intended for investors who wish to invest in smaller to medium-sized companies in the Asian Region ex-Japan, who can bear loss in the short to medium term and have a medium to long term investment horizon, who plan to remain invested for at least 5 years. Investors should be prepared to take on the level of risk identified in the section, 'What are the risks and what could I get in return?' The Sub-Fund is designed to form part of a broadly diversified portfolio of investments, particularly for investors with little past experience of this type of investment.

### Practical information

**Depository** The depository of the Sub-Fund is State Street Custodial Services (Ireland) Limited.

## What are the risks and what could I get in return?

### Risks

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

**Be aware of currency risk.** In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies, and whether the share class is hedged or unhedged.

## Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between August 2021 and April 2025.

**Moderate:** this type of scenario occurred for an investment between June 2019 and June 2024.

**Favourable:** this type of scenario occurred for an investment between June 2016 and June 2021.

## What happens if PineBridge Investments Ireland Limited is unable to pay out?

Investors are unlikely to face a financial loss due to a default of the Manager as the assets of the Sub-Fund are segregated from those of the Manager.

There is no compensation or guarantee scheme in place which may offset any potential loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

## Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 SGD is invested.

Example Investment 10,000 SGD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	1,013 SGD	1,867 SGD
<b>Annual cost impact*</b>	10.0%	4.0% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.6% before costs and 2.6% after costs.
