What is this product?

Type

UCITS investment fund in the form of an authorised unit trust.

Term

The Sub-Fund has no maturity date, however the Manager is entitled to terminate the Sub-Fund at any time.

Objectives

Investment objective The Sub-Fund seeks to achieve a superior rate of return by making equity (i.e. shares) and equity-related investments in companies operating in the economies of Latin America.

At least two-thirds of the Sub-Fund's total assets will be invested in transferable securities of issuers domiciled in or exercising the predominant part of their commercial activities in Brazil, Mexico, Chile, Argentina, Peru, Venezuela and Colombia. Within the remaining one-third, the Sub-Fund may invest in other transferable securities, including investments in other Latin American countries. The Investment Manager constructs the portfolio based on a combination of bottom-up high conviction lists, a top-down country allocation framework, and a top-down industry allocation framework.

The transferable securities in which the Sub-Fund may invest are equity and equity-related securities including but not limited to common stock, preferred stock and securities which are convertible into or exchangeable for such equity securities, or which carry warrants to purchase such equity securities; equity index- and equity-related instruments including but not limited to, participatory receipts / participatory certificates and share index notes; American Depositary Receipts (ADRs) / International Depositary Receipts (IDRs) / Global Depositary Receipts (GDRs); hold deposits with credit institutions.

The Sub-Fund may invest up to 10% of its Net Asset Value in other investment funds including real estate investment trusts ("REITS"). These investment funds must have investment objectives and policies that are consistent with those of the Sub-Fund.

The Sub-Fund may also use financial derivative instruments including swaps, futures and/or contracts for difference in order to obtain exposure to shares and the performance of financial indices. The value of any such investment in swaps or contracts for difference will not, in aggregate, exceed 35% of the Sub-Fund's Net Asset Value. The Sub-Fund also uses forward foreign exchange contracts to manage and offset currency risk.

The Sub-Fund seeks to promote environmental and social characteristics in line with Article 8 of the Sustainable Finance Disclosures Regulation (SFDR) by virtue of the incorporation of environmental, social and governance ("ESG")- and sustainability risk-related factors into the Sub-Fund's investment process and the overall assessment of a company. This includes examining issues related to governance such as business ethics, board independence and diversity in both management and board-level positions and environmental impact and social factors including energy management, waste and waste water impact, air quality impact employee health and safety, community engagement and supply chain management.

Share Class Benchmark The benchmark is MSCI Emerging Markets Latin America Daily Total Return Net Index.

Benchmark The Sub-Fund is actively managed, in reference to a benchmark. Many of the securities in the Sub-Fund may also be represented in the benchmark because the Investment Manager uses it as a basis for portfolio construction, but the Investment Manager has some discretion to deviate from the benchmark composition and risk characteristics within certain risk parameters. Examples of this are being aware of and constraining differences in sector, country or constituent weightings between Sub-Fund and benchmark. These constraints will vary over time and are subject to change. The Investment Manager does not target a specific tracking error for the Sub-Fund but historically, tracking errors have ranged from 1-4%. This is subject to change at all times.

Though the Sub-Fund may share some composition and risk characteristics with the Sub-Fund's benchmark, the Investment Manager's discretion may result in performance that differs from that of the Sub-Fund's benchmark.

Redemption and Dealing This Unit Class of the Sub-Fund may be redeemed on demand on any dealing day as detailed in the supplement. The price you pay or receive depends on the net asset value per unit on the dealing day when the unit is bought or sold.

Distribution Policy This Unit Class does not distribute dividends and any income and gains will be reinvested in the Unit's net asset value.

Intended retail investor

The Sub-Fund is intended for investors who wish to invest in shares and equity-related securities of Latin American companies, who can bear loss in the short to medium term and have a medium to long term investment horizon, who plan to remain invested for at least 5 years. Investors should be prepared to take on the level of risk identified in the section, 'What are the risks and what could I get in return?' The Sub-Fund is designed to form part of a broadly diversified portfolio of investments, particularly for investors with little past experience of this type of investment.

Practical information

Depository The depository of the Sub-Fund is State Street Custodial Services (Ireland) Limited.

What are the risks and what could I get in return?

Risks

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies, and whether the share class is hedged or unhedged.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between April 2015 and April 2020.

Moderate: this type of scenario occurred for an investment between May 2018 and May 2023.

Favourable: this type of scenario occurred for an investment between April 2020 and April 2025.

What happens if PineBridge Investments Ireland Limited is unable to pay out?

Investors are unlikely to face a financial loss due to a default of the Manager as the assets of the Sub-Fund are segregated from those of the Manager.

There is no compensation or guarantee scheme in place which may offset any potential loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 USD is invested.

Example Investment 10,000 USD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	1,045 USD	2,026 USD
Annual cost impact*	10.4%	4.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.6% before costs and -2.5% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment.	Up to 500 USD

Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	There is no performance fee for this product.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Sub-Fund is designed for investors with a with a medium to long-term investment horizon; you should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty at any time during this period at the prevailing net asset value, or hold the investment longer. If you redeem at an early stage this will increase the risk of lower investment returns or a loss. Please refer to the PineBridge Global Funds Prospectus and the Sub-Fund's Supplement for further details.

How can I complain?
