## What is this product?

### Type

UCITS investment fund in the form of an authorised unit trust.

### Term

The Sub-Fund has no maturity date, however the Manager is entitled to terminate the Sub-Fund at any time.

### Objectives

**Investment objective** The Sub-Fund will be managed to provide investors with stable return and long-term capital growth through investment in a wide range of investment grade debt securities within the "Asia Pacific Region", which includes Hong Kong, India, South Korea, Malaysia, The People's Republic of China, The Philippines, Singapore, Taiwan, Thailand, Japan, Australia and New Zealand.

The Sub-Fund will, under normal market conditions, invest primarily (at least 70% of the Sub-Fund's Net Asset Value) in USD denominated debt securities including commercial paper, bonds or other debt instruments such as callable bonds, puttable bonds, hybrid securities, perpetual bonds and Sukuk bonds issued or guaranteed by Asia Pacific Region corporations or entities, obligations of supra-national community, regional or world institutions or organisations issued or guaranteed by Asia Pacific Region government or governmental subdivisions, certificates of deposit, and bankers acceptances issued or supported by the credit of Asia Pacific Region banks. The Sub-Fund will also invest in US treasury debt securities of short, and medium to long term maturities. The Investment Manager seeks to identify and capture attractive opportunities in the fixed income universe through constant review and monitoring of global economy, market themes, risk sentiment and analysis of the fundamentals aspects of individual fixed income securities – including but not limited to country, currency and issuing entity.

The Sub-Fund will invest primarily in fixed and / or floating rate debt securities. The average rating of securities held by the Sub-Fund is expected to be BBB+ or equivalent. Each debt security will have a minimum rating BBB- or equivalent at the time of purchase. Securities which fall below BBB- or equivalent after purchase may continue to be held by the Sub-Fund. The Investment Manager will not invest in any securities rated CCC+ or below, by S&P or equivalent by Moody's or other rating agency. Any securities which fall below this minimum required rating following purchase, will be kept below 3% of the Net Asset Value of the Sub-Fund, and will be sold within six months from the point of downgrade, unless the rating is upgraded within that period.

The Sub-Fund may use financial derivative instruments ("FDI") for efficient portfolio management (including hedging) purposes only. The Sub-Fund will not use FDI extensively for any purpose.

The Sub-Fund falls under Article 8 of Regulation (EU) 2019/2088, known as the "SFDR Regulation".

**Share Class Benchmark** The benchmark is JP Morgan Asia Credit Index (JACI) Investment Grade Total Return.

**Benchmark** The Sub-Fund is actively managed, in reference to a benchmark. Many of the securities in the Sub-Fund may also be represented in the benchmark because the Investment Manager uses it as a basis for portfolio construction, but the Investment Manager has some discretion to deviate from the benchmark composition and risk characteristics within certain risk parameters. Examples of this are being aware of and constraining differences in sector, country or constituent weightings between Sub-Fund and benchmark. These constraints will vary over time and are subject to change. The Investment Manager does not target a specific tracking error for the Sub-Fund but historically, tracking errors have ranged from 1-4%. This is subject to change at all times.

Though the Sub-Fund may share some composition and risk characteristics with the Sub-Fund's benchmark, the Investment Manager's discretion may result in performance that differs from that of the Sub-Fund's benchmark.

**Redemption and Dealing** This Unit Class of the Sub-Fund may be redeemed on demand on any dealing day as detailed in the supplement. The price you pay or receive depends on the net asset value per unit on the dealing day when the unit is bought or sold.

**Distribution Policy** This Unit Class does not distribute dividends and any income and gains will be reinvested in the Unit's net asset value.
